IPVI INSIGHTS

Connecting & Supporting Families Whose Children are Visually Impaired, Including Those with Additional Disabilities

JULY 2018

PRESIDENT'S REPORT Filiberto Almendarez III

It's July! A month for celebrating out in the great outdoors. One event that comes to mind is the 2018 IPVI Brookfield Zoo Outing. The anticipation and excitement is thrilling. By the time you read this, you should have submitted your shirt sizes, membership dues and have packed your necessities. Plus, make sure to get plenty of rest the night before, because the day will be very active with multiple activities scheduled. But, "Sore today, Strong tomorrow".

Also, along with the guest speaker from Commissioner's Deer Office, we will have another speaker at this years event. Without further ado, I would like to introduce our additional guest speaker who is excited about the event. Her name is Pamela Berman. She is a member of "Guide Dogs for the Blind" and an advocate within the blind community. She enjoys educating people, especially children on all that is available for them through GDB. We welcome her and look forward to hearing about GDB and her journey. Thank you, Pam and thank you the Office of Commissioner Deer for their support of IPVI.

Lastly, I hope everyone had a great time at the Children Museum. I was unable to attend, but received enthusiastic responses from members and their experience and how they are looking forward to the Zoo event.

For now, take care and hope to see you and your child/children at the 2018 IPVI Brookfield Zoo Outing!

When our daughter was born visually impaired, as young parents we were at a loss as to what to expect as she grew up. We wanted a community to join so we could ask questions and feel that we were not alone. It was at this time (1985) that Mary Zabelski and my husband, Bill, decided to begin an organization for the blind and visually impaired for the state of Illinois, "Illinois Parents of the Visually Impaired or IPVI."

The organization grew and we had many members who were willing to help us as Board Members or volunteers. They also were young parents and were in the same place as we were.

So as our members continued to help and pay their dues, our organization grew and we were able to offer so much more to our IPVI families.

As the years went by, something happened to our organization. We no longer had help or younger people to volunteer to become a Board Member or volunteer. We actually had to rotate the members to do these important jobs.

My daughter is now 33 and Mary's daughter has passed. Fil volunteered a few years ago as President with no prior experience. He does have a younger son and has been so very good as president. There should be 5 on the Board: President, 2 VP's, Treasurer and Secretary. We are down to 3 people so 2 are doing double-duty.

We so hope that younger parents with younger children can find it in their hearts to help make IPVI great again. Your children will benefit from this and you will too. If you want to see what it is all about, we have 2 Board positions open, Treasurer and Vice President or Secretary. You will always have help to begin your IPVI journey. Thanks from the bottom of our hearts.

- Joan Bielawski, Temporary VP and Secretary

"Literacy through Experience at Brookfield Zoo"

Imagine (in the mind's eye) a sensory Zoo experience - listening to the animals, smelling the environment, touching real and simulated animals in their habitat......well

Saturday, July 21, 2018 at Brookfield Zoo

is the chance of a lifetime.....the only problem? Are you going to be there?

ATTENTION! ATTENTION! Brookfield Zoo is BIG and the choices are many—arrive early and plan on spending the entire day. **Plan to arrive at 9:30am, the Zoo opens at 10am.** Tons of activities are available throughout your day! Your IPVI T-Shirt will be your exclusive passport into all the action.....into the Zoo, the **Seven Seas Dolphin Show after lunch (with exclusive after show event), and tickets to other venues.** Sensory experiences abound!!

Our theme is *"Literacy through Experience at Brookfield Zoo"*....ask questions, touch the special exhibits, analyze and enjoy the unique sounds, smells and textures of the Zoo!

Our luncheon, at the Discovery Ballroom, will include pizza, drinks, and a chance to meet other parents with children of all disabilities. Our Guest Speakers will be the Commisioner's Deers Office plus Pamela Berman Who is with Guide Dogs for the Blind.

Become an IPVI member! Dues paying members (\$20) receive free admission and parking at our Members' Only Events — Zoo Outing, Holiday Party, Play For All, etc. — activities intended to provide social and literacy opportunities for children, parents, teachers, professionals and friends.

Paid membership includes newsletters sent by email (so be sure to provide yours on the form), and invitations to various seminars and conferences from various other organizations.

If you'd like more information on how to attend the 2018 IPVI Zoo Outing, or on how to become a member of the "IPVI Family Network", **call Mary Zabelski at (773) 882-1331.** The registration form is on the following page.

Prevent Blindness Warns Public on the Dangers of Fireworks, Potential for Devastating Injuries

CHICAGO (June 18, 2018) – While many Americans spend the Fourth of July holiday with friends and family, some actually spend their time being medically treated for a fireworks injury. The latest report from the U.S. Consumer Products Safety Commission found an estimated 7,600 fireworks-related injuries were treated in U.S. hospital emergency departments during the Independence Day period.

There were an estimated 11,100 fireworks-related injuries for the year. Unfortunately, many injuries are to children. In fact, children younger than 15 years of age accounted for 31 percent of the estimated injuries. Although most injuries result in burns, firework-related injuries to the eye include contusions, lacerations, and foreign bodies. Injuries may be so severe that permanent vision loss or blindness may occur. And, in 2016, four people died from direct impacts from fireworks.

<u>Prevent Blindness</u>, the nation's oldest eye health and safety non-profit organization, and a member of the National Fire Protection Association's "<u>Alliance to Stop Consumer Fireworks</u>," supports the development and enforcement of bans on the importation, sale and use of all fireworks and sparklers, except those used in authorized public displays by competent licensed operators. However, the group also warns that even professional displays can be dangerous, due to the erratic or unpredictable nature of fireworks.

In the event of an eye emergency, Prevent Blindness recommends:

- Seek help from a medical professional immediately.
- Do not rub the eye. Rubbing the eye may increase bleeding or make the injury worse.
- Do not attempt to rinse out the eye. This can be even more damaging than rubbing.
- Do not apply pressure to the eye itself. Holding or taping a foam cup or the bottom of a juice carton to the eye are just two tips. Protecting the eye from further contact with any item is the goal.
- Do not stop for medicine! Over-the-counter pain relievers will not do much to relieve pain. Aspirin (should never be given to children) and ibuprofen can thin the blood, increasing bleeding. Take the injured person to the emergency room at once.
- Do not apply ointment. Ointment, which may not be sterile, makes the area around the eye slippery and harder for the doctor to examine.

"Every year, thousands of people are injured due to accidents involving fireworks. These happen in a split second, often to bystanders, and some injuries are so severe that permanent damage occurs," said Jeff Todd, president and CEO of Prevent Blindness. "We urge everyone to leave the fireworks to the experts and to always be vigilant, even during professional displays."

New OCR data documents disproportionate discipline and restraint and seclusion of students with disabilities

The US Department of Education has released a disturbing report that documents that students with disabilities are dramatically more likely to be subject to school disciplinary procedures than students in regular education. In fact, they are being suspended, expelled or arrested at rates at least double the proportion of students in regular education. Of greatest concern,

"The vast majority of the estimated 122,000 students restrained or secluded at school had disabilities", the Education Department said. Children served under IDEA represented 71 percent of those restrained and 66 percent of kids subject to seclusion.

New website provides information on efficacy of common reading and math interventions

Both the IDEA and ESSA require that schools used research-based methodologies to teach reading and math. It is very important that schools be sure that they are using appropriate and effective methods to instruct their students. It is equally important that parents verify that the programs being used are actually appropriate and effective to address their particular student's needs. This new site provides information on the research (or lack thereof) in relation to many of the most commonly used instructional programs. Check it out:
